

IILA EDUCATION COMMITTEE REPORT

The Education Committee as mandated by the Executive Committee will be providing the IILA membership via its newsletter with various educational content on various aspects of the property adjustment field.

The Education Committee has reached out to friends of the Institute to assist in providing various topical articles offering insights into important and timely issues, such as business interruption, current legal climate, damage assessment, engineering issues, fraud, mitigation and remediation techniques, along with the selection and use of experts to name a few.

The Education Committee looks forward to working with the officers and directors of the Institute and welcomes and any all suggestions from the membership.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "C. J. Reilly, Jr.", is positioned above the printed name.

Charles J. Reilly, Jr., CPCU, RPA
